

5G GATEWAY  
SAFETY AND REGULATORY  
INFORMATION

## **SAFETY GUIDELINES**

ALWAYS READ THE T-MOBILE 5G GATEWAY QUICK START GUIDE BEFORE SET UP OR USE OF THE PRODUCT. IT IS YOUR RESPONSIBILITY TO FAMILIARIZE YOURSELF WITH THE PRODUCT USER GUIDES AND WARNINGS, AND TO USE THE PRODUCT PROPERLY.

### **Warning - Risk of electric shock or fire**

Connect the Product power adaptor or cord to the right supply voltage (120V AC in USA).

Pay attention to the power load of the electrical outlet and possible extension cord. An overburdened power outlet or damaged cords and plugs may cause electric shock or fire. Check the power cords regularly. If you find any damage, replace the cord immediately.

Do not connect the plug into an extension cord, receptacle, or other outlet unless the plug can be fully inserted with no part of the blades exposed.

Leave adequate space for heat dissipation to avoid any damage caused by overheating the Product. Do not cover the Product or its ventilation holes. Blocking the ventilation holes may cause fire.

Use the power adapter provided with your Product and do not fasten the power cable to building surfaces. Ensure the cable can move freely. Do not place heavy objects on the cable.

Do not use the Product outside, and make sure all the connections are indoors.

Do not install, use, or service this Product during a thunderstorm. There is a remote risk of electric shock from lightning.

Do not touch the Product or its power adapter or cord with wet hands.

Do not open or try to open the Product. Opening or removing covers can expose you to dangerous high voltage points or other risks.

The standby power consumption of the Product is 11.7W.

**Caution -Potential equipment damage**

Follow these recommendations to protect yourself and the Product from harm:

Use the Product only in upright position as shown in the Quick Start Guide.

Do not insert any sharp object into the openings of the Product.

Do not put the Product near a heat source. Avoid placing the Product in direct sunlight.

Do not put the Product in damp or wet locations; for example, near a bathtub, washbowl, kitchen sink or laundry tub, in a wet basement, or near a swimming pool. Do not spill any liquid on the Product.

Do not place the Product on an unstable surface or support.

Do not place anything on top of the Product.

Do not use liquid or aerosol cleaners; unplug the Product and use a soft, dry cloth for cleaning.

When connecting a PC or other electronic device to the Product, make sure you use the right cables and connect the device to the right port of the Product. Incorrect connections may damage the device and/or the Product.

Do not attempt to access, manipulate, insert foreign objects into, remanufacture, or immerse or otherwise expose it to water. Do apply care to avoid accidental drops along with the Product.

Users and other individuals must maintain a distance of at least 28 cm between themselves and the Product to minimize exposure to radiation. The Product contains components that emit an electromagnetic field and could interfere with pacemakers or other electronic medical devices. If you have a pacemaker or other implantable or personal medical device, please consult your physician or medical device manufacture about the required minimum safe distance between the Product and your medical device.

If the Product malfunctions or fails to perform as expected, stop using it immediately. The Product is for indoor and domestic use only.

## **ENVIRONMENTAL AND REGULATORY REQUIREMENTS**

Any changes or modifications not expressly approved by the party responsible for compliance of this device voids the user's authority to operate this device.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Section 15.407 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the Product and/or the receiving antenna of the device experiencing interference.
- Increase the separation between the Product and/or the device experiencing interference.
- Connect the Product into an outlet on a circuit different from that to which the device experiencing interference is connected.
- Consult the dealer or an experienced technician of the device experiencing interference for help.

This device has been tested and meets applicable limits for Radio Frequency (RF) exposure. This equipment must be installed and operated with minimum distance 28 cm between the radiator & your body.

**For Products Purchased in the United States**

FCC ID: P27-TMOG5SE

Contains FCC ID: P27-TMOG5SEM

**FCC Radiation Exposure Statement**

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. To ensure compliance with the FCC's RF exposure guidelines, the device must be used at least 28 cm from your body.

FCC regulations restrict operation of this device to indoor use only.

The operation of this device is prohibited on oil platforms, cars, trains, boats, and aircraft, except that operation of this device is permitted in large aircraft while flying above 10,000 feet in the 5.925-6.425 GHz band.

Operation of transmitters in the 5.925-7.125 GHz band is prohibited for control of or communications with unmanned aircraft systems.
