If you want to obtain a device, learn more about [prices, terms, and other options](#).

Choose Your Data Plan - These prices do not include costs for obtaining a device from us.

	Smartphone High Speed Data allowance per month				
	Unlimited T-Mobile ONE™	Unlimited T-Mobile ONE Plus	Unlimited T-Mobile ONE Tablet	T-Mobile ONE Wearable <i>Unlimited at up to 3G speeds.</i>	Unlimited T-Mobile Essentials™
	On all T-Mobile plans, in times and places of congestion the small fraction of customers using >50GB/mo. may notice reduced speeds until next bill cycle due to data prioritization. During congestion, T-Mobile Essentials™ customers may notice speeds lower than other customers and further reduction if using >50GB/mo.				
Monthly charge <i>For one line of service. Does not take into account any of our deals and promotions.</i>	\$70 <i>when using AutoPay</i> +\$5/mo. w/out AutoPay	\$15 <i>when added to T-Mobile ONE</i>	\$20 <i>when paired with T-Mobile ONE voice line and when using AutoPay</i> +50/mo. w/out voice line +\$5/mo. w/out AutoPay	\$10 <i>when paired with T-Mobile ONE voice line and when using AutoPay</i> +10/mo. w/out voice line +\$5/mo. w/out AutoPay	\$60 <i>when using AutoPay taxes and fees additional</i> +\$5/mo. w/out AutoPay
When you exceed the high-speed data allowance	N/A				
Tethering	Unlimited at up to 3G speeds.	20GB at up to 4G LTE speeds. <i>then 3G speeds</i>	Unlimited at up to 3G speeds.	N/A	Unlimited at up to 3G speeds.
	T-Mobile prioritizes on-device data over tethering data. Customers may notice reduced tethering speeds in times and places of congestion.				
Other plan features	<ul style="list-style-type: none"> • Gogo@ unlimited texting and 1 hour in-flight wifi on participating flights 	<ul style="list-style-type: none"> • Ability to stream video in HD 			<ul style="list-style-type: none"> • Travel abroad in 210+ countries and destinations with access to calls at \$0.25 a min

	<ul style="list-style-type: none"> • Travel abroad in 210+ countries and destinations with data speeds up to 128 kbps 	<ul style="list-style-type: none"> • Gogo unlimited texting and Wi-Fi on participating flights • Travel abroad in 210+ countries and destinations with data speeds up to 256 kbps • Voicemail to Text • Name ID

Charges and Terms Common to All Plans

One-time fees N/A

SIM Starter Kit \$25 (postpaid and no credit check); \$10 (prepaid)

Government Taxes and Fees, and Other Carrier Surcharges May Also Apply: Sales tax and regulatory fees included in monthly service price for T-Mobile ONE plans. Sales tax and regulatory fees additional for T-Mobile Essentials plan.

Performance - [Individual experience may vary](#). For performance information relating to specific geographic areas, see our [coverage map](#) or click [here](#).

4G LTE (On-Device)	4G LTE (Smartphone Mobile HotSpot/Tethering)	Non-LTE
Typical¹ Speed	Typical¹ Speed	Typical² Speed
<i>7 – 40 Mbps (peaks up to 90 Mbps; min. expected speeds of less than .1 Mbps) downstream</i>	<i>3 – 25 Mbps (peaks up to 90 Mbps; min. expected speeds of less than .1 Mbps) downstream</i>	<i>1.5 Mbps downstream 230 Kbps upstream</i>
<i>4 – 20 Mbps (peaks up to 35 Mbps; min. expected speeds of less than .1 Mbps) upstream</i>	<i>2 – 10 Mbps (peaks up to 35 Mbps; min. expected speeds of less than .1 Mbps) upstream</i>	

¹ LTE projections are based on third-party, crowd-sourced data for the 25th and 75th percentiles of speed tests. Peak speed represents the 99th percentile.

² T-Mobile continues to provide non-LTE connections for customers who are not able to receive an LTE signal. Non-LTE connections are used by the small percentage of our customers still using non-LTE devices or, in limited cases, when customers with LTE devices are unable to connect to the LTE network. Non-LTE projections are based on internal testing and testing from third-parties.

<p style="text-align: center;">Typical Latency</p> <p style="text-align: center;"><i>30 – 55 ms</i></p>	<p style="text-align: center;">Typical Latency</p> <p style="text-align: center;"><i>30 – 55 ms</i></p>	<p style="text-align: center;">Typical Latency</p> <p style="text-align: center;"><i>60 – 180 ms</i></p>
<p>Network Management</p>		
<p>Application-specific network management practices?</p> <p>T-Mobile utilizes streaming video optimization technology, which improves overall data usage management of the network, resulting in greater network speeds and throughput for other customers using data because less network payload is dedicated to video. For video that is not self-optimized by the video provider, T-Mobile adjusts the delivery rate for streaming video to up to 1.5Mbps, which causes the video to lower resolutions and use less data. Learn more here.</p>		<p>Yes</p>
<p>Subscriber-triggered network management practices?</p> <p>T-Mobile employs a number of subscriber-triggered network management practices to provide the best possible experience for the most possible customers on T-Mobile-branded plans, including managing significant high-speed data usage through prioritization. On all T-Mobile plans, we prioritize the data usage of a small percentage of our heavy data users, specifically those using more than 50GB of data in a billing cycle below that of other customers. This threshold number applies to all plans, is periodically evaluated, and may change over time. We also prioritize the data of customers who choose certain rate plans after the data for other T-Mobile branded rate plans, but before customers using more than 50 GB of data in a billing cycle. Additionally, T-Mobile prioritizes on-device data over tethering data. Customers may notice reduced speeds in comparison to customers with a higher priority in times and locations where there are competing customer demands for network resources.</p> <p>For T-Mobile ONE, T-Mobile ONE Plus and T-Mobile Essentials customers: If a customer is a heavy data user (>50GB) during a billing cycle and using their device for tethering for the majority of their use over an extended period of time, T-Mobile may contact them to discuss their plan and options.</p> <p>T-Mobile also reserves the right to suspend, restrict, or terminate service, or take other actions as necessary based on a violation of its Terms and Conditions. Learn more here.</p>		<p>Yes</p>
