You’re covered from point A to point B

Transporting time-sensitive goods quickly, safely, and reliably is essential to keeping customers happy. T-Mobile® SyncUP FLEET™ helps you reduce fleet costs, increase on-road productivity, and improve driver safety with high-performance technology that’s scalable, flexible, and customizable.

The SyncUP FLEET advantage

- Track your workforce, assets, and fuel costs
- High-performance GPS technology
- Driver safety scorecard
- Advanced dashboard reports
- Dashboard reporting
- Custom rules and alerts
SyncUP FLEET management solutions

SyncUP FLEET gives you data you can use to:

**Help manage compliance**
- HOS and DVIR (vehicle inspections)
- Electronic logs for reduced paperwork
- Set policy rules and alerts

**Improve driver safety**
- Risk and safety reports
- Speeding alerts
- Afterhours usage & tracking
- Driver performance reporting

**Boost productivity & control costs**
- Live tracking of fleet vehicles
- Trip and activity reporting
- Reduce idle time
- Asset utilization reporting

**Cut fuel costs and optimize fleet**
- Reduce speeding and unnecessary idling
- Reduce CO2 emissions
- Detect engine issues
- Predictive maintenance
- Route optimization (review planned vs. actual)

**SyncUP FLEET device**
- Fast GPS acquisition time
- Rich, near real-time data
- Accurate engine diagnostics
