

# T-Mobile For Business MARKETPLACE

## IBM® MaaS360®

MaaS360 simplifies mobile device management (MDM) with rapid deployment, visibility and control that spans across smartphones, tablets, applications, and documents. In just a few clicks, IT administrators can quickly manage the entire mobile device lifecycle—all from a single screen.

## Simplify MDM and security

IBM MaaS360 with Watson is a secure enterprise mobility management (EMM) platform that quickly and seamlessly deploys and configures devices, delivers productivity apps, and enables content collaboration across endpoints, users, apps, docs, and data.

### Enroll mobile devices rapidly

Streamline the platform set up and device enrollment process.

### System integration

Through the Cloud Extender, system integration is easy and straightforward.

### Centrally manage devices

Provides a unified management console for smartphones and tablets across multiple platforms.

### Monitor and report

Mobility Intelligence™ dashboards deliver an interactive, graphical summary of your mobile management operations.

### Proactively safeguard devices

Dynamic, robust security and compliance capabilities to continuously monitor devices.

### Streamline MDM support

Delivers the ability to diagnose and resolve device, user, or application issues continuously.

T-Mobile for Business Marketplace offers mobile management solutions to help you take control and secure your organization's devices. The best part: our Marketplace team will help you with onboarding and provides 24/7 support for these business-critical apps. View all the available solutions at [T-mobile.com/business/solutions/marketplace](https://t-mobile.com/business/solutions/marketplace).
