

T-Mobile For Business MARKETPLACE

VMware®

Your business needs top-notch IT security that gives you a way to help protect and manage your mobile workforce without outsourcing the responsibilities.

VMware offers you to a variety of mobile device management (MDM) platforms, so you can easily provision and configure your devices.

Support your mobile workforce

Workspace ONE® Express is MDM made simple. Easily configure devices with apps, email, and help protect data with restrictions and remote lock and wipe.

For more comprehensive device management, VMware offers Workspace ONE, Standard and Advanced Editions, that provides both unified endpoint management and a seamless user experience for accessing apps on virtually any device.

Deploy applications

Assign apps and policies to individuals and groups of users. Also, provide Single Sign-On access to apps on virtually any device with Workspace ONE Standard and Advanced.

Secure devices

Help protect devices by implementing passcode requirements and access remote actions, like locking or wiping lost or stolen devices.

Stay connected

Connect to enterprise resources including: email, VPN, Wi-Fi, content, intranet sites, and other back-end resources.

Easy to operate

Delivers cloud-based management for organizations using mobile devices so you can keep doing business.

Scalable services

Easily upgrade from Express to Standard or Advanced.

Manage email

Enable user access by integrating with existing directories and email systems.

T-Mobile for Business Marketplace offers affordable mobile management and productivity solutions for your business to take control of devices. The best part: our Marketplace team will help onboard you and provides 24/7 support for these business-critical apps. View all the available solutions at [T-mobile.com/business/solutions/marketplace](https://t-mobile.com/business/solutions/marketplace).
