

# Fleet Management for Your Business

Track your fleet's service and response times and improve efficiency, utilization, and safety.

Fleet management isn't just knowing where your drivers are or if they're speeding. It means gathering information so you can improve *fuel efficiency, optimize routes, reduce idling time, and improve driver safety*. Our experts work with you to determine the best solution based on the size of your business and your specific vehicle types.

**32%**

of fleet managers say their largest operating expense is fuel costs.<sup>1</sup>

**42%**

have seen fewer safety incidents since using fleet management software to monitor driver behavior.<sup>2</sup>

## See what T-Mobile for Business Fleet Management Solutions can do for you

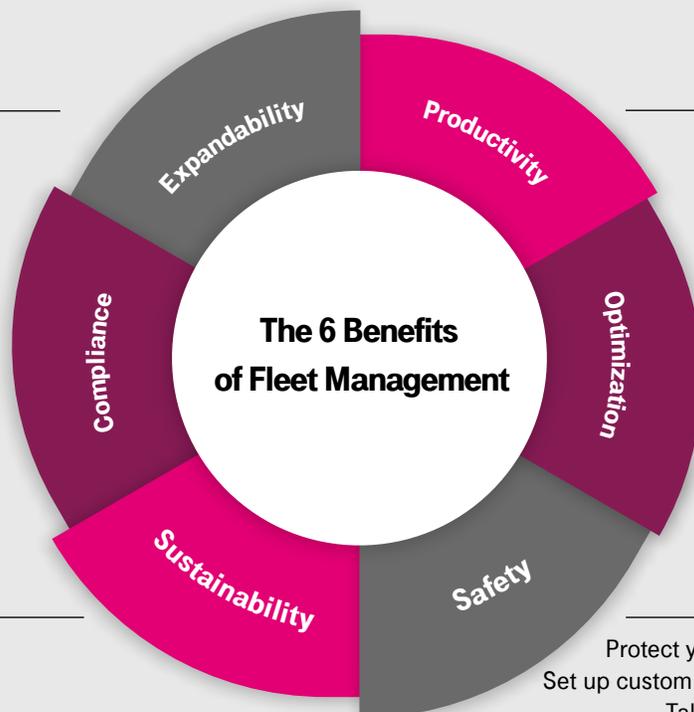

Software/Hardware Integration, Near Real-time Data, Customizable App Reporting

Electronic Logging, DVIR/HOS Reporting, Fuel Tax Reporting

EV Compatibility, Performance Monitoring, Charging Reports, Maintenance Alerts

Driver Behavior, GPS Asset Tracking, Journey Planning

Fuel Management Tracking, Predictive Maintenance, Active Diagnostics

Protect your fleet and identify risky driving, Set up custom alerts for collisions and violations, Take driver coaching to the next level

Qualifying plan, capable device, and compatible vehicle required, including for maintenance reports, notices, diagnostics, and predictive alerts.

# T-Mobile for Business Fleet Management Solutions

## Productivity

Help increase earning potential by monitoring asset and driver behavior, understanding your fleet data with custom reporting tools and lowering costs with optimized routing:

- Improve bottom line with reliable asset tracking
- Respond to changes with real-time dispatch and routing
- Track and improve driving behaviors

## Compliance

Streamline and strengthen your compliance measures—from conducting investigations and completing reports to meeting regulations:

- Automate and simplify DVIR, HOS and IFTA reporting
- Reduce risk of downtime and penalties
- Use near real-time and in-app alerts to stay compliant

## Optimization

Reduce downtime and help lower costs with predictive diagnostics:

- Streamline routing, and identify speeding and idling
- Develop fuel efficient driving behaviors
- Reduce downtime with predictive diagnostics

## Sustainability

Unlock data and insights from your fleet to decrease negative environmental impacts:

- Monitor fuel/energy usage to improve performance
- Find out EV compatibility
- Unlock data and insights from your fleet

## Safety for Business

Keep everyone safe—both your drivers and people around your vehicles—using in-cab technology and reporting:

- Enable on board incident alerts identifying speeding, hard braking and swerving
- Discover and address poor driving habits with at-risk drivers
- Help develop internal driving policies for driver compliance

## Expandability

Extend functionality and automate processes to add value, increase efficiency and better support business needs:

- Use near real-time vehicle data to support apps and systems
- Consolidate all data into a single, centralized hub
- Integrate all hardware into one telematics platform

## Why T-Mobile Fleet Management?

Get actionable insights to optimize your fleet. Make informed decisions in near real-time. And find solutions for your exact needs. With the T-Mobile® Business Advantage you'll never have to choose between network, support and value. With us, you get all three. No compromise.

Qualifying plan, capable device, and compatible vehicle required, including for real-time tracking, hours of service reporting, and maintenance reports, notices, diagnostics, and predictive alerts. During congestion the small fraction of customers using >50GB/mo. may notice reduced speeds due to data prioritization. **Coverage** not available in some areas. **Network Management:** Service may be **slowed, suspended, terminated, or restricted** for misuse, abnormal use, interference with our network or ability to provide quality service to other users, or significant roaming. During congestion the small fraction of customers using >50GB/mo. may notice reduced speeds until next bill cycle due to data prioritization. On-device usage is prioritized over tethering usage, which may result in higher speeds for data used on device. See [T-Mobile.com/OpenInternet](https://www.t-mobile.com/OpenInternet) for details. **See Terms and Conditions (including arbitration provision)** at [www.t-mobile.com](https://www.t-mobile.com) for additional information.
