

# Fleet Solutions for Government

Track your fleet's service and response times—  
from desktop and mobile

Most agencies aren't taking full advantage of modern telematics. T-Mobile for Government fleet solutions helps you monitor your fleet—so you can track vehicle diagnostics, driving behavior analytics, real-time car tracking, fuel efficiency, route optimization, roadside assistance and more.

**25%**

Average time a fleet vehicle spends idling over a typical day<sup>1</sup>

**43%**

Number of government fleet operators reporting "aging fleets" as their top concern<sup>2</sup>

**\$13,680**

Highest recorded fine (as of 2018) for Electronic Logging Device (ELD) mandate penalty<sup>3</sup>

**20-30%**

Fewer preventable accidents by installing telematics<sup>4</sup>

In-Cab Coaching  
Authorized Usage

# Fleet Solutions for Government

## Efficiency

By utilizing hours of service availability, location data, delivery-specific rules, and intelligent vehicle/driver assignments, you'll know:

- The location of every vehicle and its assets
- How much each route costs
- Where to assign extra workloads
- How to accurately plan for capacity and backloading

## Compliance

Enhance driver safety and job satisfaction, increase driver retention, and maintain compliance with in-cab technology that helps you:

- Automate and simplify International Fuel Tax, HOS and emissions reporting
- Meet the ELD mandate
- Receive automated reports to reduce fines and prevent unauthorized use
- Comply with FMCSA 395.15 for onboard recording devices

## Performance

Improve fleet and driver performance and better manage fuel costs by:

- Reviewing breadcrumb trails to assist with historical analysis
- Identifying and preventing bad driving habits
- Notifying operations when vehicles are experiencing performance issues or require maintenance
- Monitoring fuel-wasting behaviors like speeding, fast acceleration, and idling

## Safety

Take action and keep valuable assets secure by receiving alerts when things change. Near-real-time GPS tracking helps:

- Proactively guard against unauthorized use
- Preserve the safety of perishable goods in transit
- Lower costs associated with improper vehicle use and damage
- Reduce accidents and prevent injuries with perimeter geofencing

## Why T-Mobile for Government Fleet Solutions?

T-Mobile can help build the perfect fleet management solution for your agency—for safer drivers and fuel efficiency as well as better sustainability and citizen engagement.

Our solutions are ideal for government agencies looking to budget effectively in both short and long term. Your mission depends on a high-performing fleet. T-Mobile solutions help you get there—no matter how big your operation gets.

### No-Stress Switch™

We've made the switching experience seamless by delivering a consistent and predictable migration process that doesn't disrupt your business.

### A trusted network

With 5G in 50 states, our nationwide 5G network covers government agencies in more places than anyone else.

### Strategic relationships

Relationships with industry-leading providers deliver a solution that's just right for you.

### Innovative IoT technology

Dash cams, AI-powered driver safety solutions and sophisticated telematics for the best results.

Coverage not available in some areas. Network Management: Service may be slowed, suspended, terminated, or restricted for misuse, abnormal use, interference with our network or ability to provide quality service to other users, or significant roaming. During congestion, heavy data users (>50GB/mo. for most plans) and customers choosing lower-prioritized plans may notice lower speeds than other customers. See [T-Mobile.com/OpenInternet](https://www.t-mobile.com/OpenInternet) for details. See Terms and Conditions (including arbitration provision) at [www.t-mobile.com](https://www.t-mobile.com) for additional information.
